Edit with Copilot

Agent Mode EXPERIMENTAL

Ask Copilot to edit your files in [agent mode](#). Copilot will automatically use multiple requests to pick files to edit, run terminal commands, and iterate on errors.

Copilot is powered by AI, so mistakes are possible. Review output carefully before use.

SWE Agents on GitHub.com

The screenshot shows a GitHub pull request interface. At the top, there are navigation tabs for Issues (20), Pull requests (12), Discussions, Actions, Projects, Security, and Insights. The main title of the pull request is "Game elements seem to disappear #49" with a green "Open" button. The pull request was opened by "monalisa" 2 months ago. The description states: "Players reported inconsistencies in the score calculation, particularly related to bonus point application. In c...". The repository is "octoarcade / invaders". Below the pull request title, there are tabs for Conversation, Commits, Checks, and Files changed (4). A comment from "Copilot" is visible, stating "Copilot created 12 minutes ago" and "Addresses an issue that involved incorrect score calculation in the game_logic.js module." Below the comment, there are two bullet points: "Adjusted the condition in calculateScore() to ensure bonus points are applied correctly." and "Refactored redundant code to improve readability and maintainability." An "Assign a user" dropdown menu is open, showing a search bar and a list of users: Copilot (checked), magnusflare (Ólafur Magnússon), hankzolo (Hank Zoeng), hamedvoyage (Hamed Bettar), and hsiaohype (Julian Hsiao). A small cartoon character with a cloud on its head is positioned above the dropdown menu.

WHY?

- GitHubが、より深くつながり、課題や成功事例を共有できる「場所と機会」を提供
- 変化が早い中で会話を促したい
- ふんわりユーザーグループ(コミュニティ)を作りたい

- 次のイベント、6月上旬開催企画中
- イベント会場をご提供いただける企業様、GitHub田中智子までお声がけください！

Thank you!
